ANSWER SHEET

WRITING

Write 200 – 220 words.

Now, I want to tell about modern fashion. To begin with, the modern world has a wide range of clothes and shoes. The modern designer suggest different kind of styles and fashion 32.

Nowadays, people choose what style and clothes they wear. Their ~~choosing~~ ^{choice} depends on events in their life. For example birthday, The New Year or Christmas, they choose beautiful, bright outfit. Of course if it's a happy event. If they have bad event or official event, they choose dark outfit. 50

I think that there ~~are~~ ^{is} a difference between fashion and style. Choosing style depends on your living events. For example if you go to school or work, you should wear uniform. If you go to birthday, you can wear bright dress.

Fashion is a suggestion modern designer. It is when you wear fashion clothes you are ~~in~~ trendy. You are cool. 60

I agree that wardrobe of many young people consists of baggy clothes. Many teenagers wear jeans, T-shirts and sneakers because it's comfortable clothes.

As for me, I prefer casual style of clothes. I want to look beautiful. When I wear casual style, for example strict suit or dress, I feel confidence. 50 confident

When I go to school, I also wear uniform. I think it's important when students wear uniform. They look neat and tidy. Also I think when you wear uniform, you concentrate on study. You keep mind only on studying. But it's my opinion. So, I would recommend my classmates wear uniform or white shirt and black trousers.

So, that all I wanted to say. I hope I explain my opinion. 66
