ANSWER SHEET

WRITING

Write 150 – 180 words.

The most important profession on Earth
Hello! Have you ever thought about how we keep getting
lots of dangerous and deadly diseases almost all
the time, and how we overcome them and find new ways
to cure them? How do we do it? With the help of
doctors, obviously! 49
Doctors are very important for us, because you can
always turn to them whenever you're ill, or when you
get other deadly health problems. There's also many
different types of doctors for all kinds of
situations! For example: dentists help with dental 42
care; chiropractors help with body deformations, etc.
There's so many doctors in the world, and without them,
life on Earth would be impossible! As for the future,
life could become more difficult, and more diseases
would appear and infect lots of innocent civilians.
But we won't fear, because doctors will evolve, advance 57
and improve the healthcare system, so people won't
have to suffer from illnesses without vaccines. Plus,
more kinds of doctors would appear, more people
would become doctors, and less lives will be lost!
And that is why doctors are the most important
people on our planet. Thank you for reading. We
hope you learned something new. 57
